

## From Dust, To Life, To Power

Dust... particles of confusion

*Let not Clouds of dust particles intermingle with the particles of common sense within our brain cells that God gave us. When the clouds of dust particles seek through, surely sin has entered our soul. It will then be difficult for God to come through the clouds of our confusion.  
(Laconic, Dr. Clarence Rucker, 1944-)*

---

Let us be reminded that Church and State should be redefined spiritually: Church is you and I, a cathedral for Christ. State means our status in Christ. If we do not stand for these two words, “Church and State,” “We will surely fall for anything.”
